

Special issue of The Protein Journal (JOPC)

Editor-in-Chief: Lawrence J. Berliner, University of Denver
3rd Enzyme and Bioprocess, EBDays 2021 and ProtStab2021: 13th International Conference on Protein Stabilization

Special Issue guest editor: Barış Binay

Please submit a short research article/overview/review/minireview paper

Submit manuscripts (<https://www.editorialmanager.com/jopc/default.aspx>). The menu will ask if you're submitting to a special topics issue; then choose:

S.I. EBDays 2021/ProtStab2021

Papers will be rapidly peer reviewed (please suggest reviewers with institutional email addresses)

Deadline: December 31, 2021; projected publication date: March 2022

Any questions to Larry Berliner: berliner@du.edu or Barış Binay, binay@gtu.edu.tr

The Protein Journal (formerly the Journal of Protein Chemistry) publishes original research work on all aspects of proteins and peptides. These include studies concerned with covalent or three-dimensional structure determination (X-ray, NMR, cryoEM, EPR/ESR, optical methods, etc.), computational aspects of protein structure and function, protein folding and misfolding, assembly, genetics, evolution, proteomics, molecular biology, protein engineering, protein nanotechnology, protein purification and analysis and peptide synthesis, as well as the elucidation and interpretation of the molecular bases of biological activities of proteins and peptides. We accept original research papers, reviews, mini-reviews, hypotheses, opinion papers, and letters to the editor.

The Protein Journal is a member of CrossCheck by CrossRef and iThenticate. iThenticate is a plagiarism screening service that verifies the originality of content submitted before publication. iThenticate checks submissions against millions of published research papers, and billions of web content. Authors, researchers and freelancers can also use iThenticate to screen their work before submission by visiting www.ithenticate.com.
